## Metal Detectable Reusable Earplugs

*Maximum Comfort, Multiple Flange Design & Cost Effective.*

CK Safety now offers the CKR907 Metal Detectable Reusable Earplug. This super comfortable 4-flange design is made of a soft non-allergenic resin, which forms to the ear canal creating a snug and comfortable fit. The CKR907 also has the added features of being cold, heat and oil resistant, making it a great long wearing and multiple use earplugs. The CKR907 offers a great NRR of 26 making it perfect for noisy food processing and production areas. These earplugs are highly detectable, including the cord. The CKR907 come with an embedded metal cylinder, which wraps around each end of the cord inside the earplug itself removing the opportunity of exposed contaminants. The CKR907 cord utilizes a special developed additive that makes it highly detectable. These Earplugs are perfectly suited for the food and meat processing, pharmaceutical and the beverage manufacturing industries. Earplugs come in their own dispenser box.

### Features & Benefits

- Cost effective
- Comfortable and soft 4-flange design
